

Safety Program Manager Supplemental Questionnaire

(Please feel free to use another piece of paper for your answers)

- 1. Describe your experience developing and implementing safety or risk management programs. Include the types of programs you've overseen, your role in their implementation, and any results or improvements achieved.**

- 2. What is your experience conducting workplace safety inspections, accident investigations, and developing corrective action plans? Provide a specific example and outline the steps you took from identification to resolution.**

- 3. El Dorado Transit operates under both state (Cal/OSHA) and federal (FTA) safety requirements. Describe your knowledge of these regulatory frameworks and how you ensure organizational compliance.**

- 4. This role requires strong training and communication skills across departments. Describe a time when you developed or facilitated safety training for a diverse group of employees. What approach did you use to ensure engagement and understanding?**
