INTRODUCTION

El Dorado Transit invites and welcomes quotations for their Swamp Cooler Replacement Project. Please carefully read and become familiar with the Quotation requirements. Any prospective bidder must attend the Mandatory Job Walk or any submission without attending the job walk will not be considered.

PROJECT AND LOCATION

This project is located behind the El Dorado Transit administrative offices (6565 Commerce Way) with the actual address for the Bus Maintenance Facility being 6567 Commerce Way, Diamond Springs, CA 95619.

PROJECT SUPERVISOR

The Project Supervisor is Jeremy Fortin, Maintenance & Facilities Supervisor, 530-642-5383, Ext. 212, or by e-mail at jfortin@eldoradotransit.com.

PROJECT SCOPE AND SPECIFICATIONS

There are two (2) existing swamp coolers in the bus maintenance facility that are in poor condition and must be replaced. The scope of the project is to remove the existing swamp coolers and replace them in-kind. There are also two diffusers attached to the swamp coolers that help distribute the air to the interior of the building. The existing exterior racking for the two swamp coolers can be reconditioned (sanded, primed & repainted).

REQUEST FOR QUOTATION

PROJECT SCOPE AND SPECIFICATIONS (CONT.)

The existing swamp coolers appear to be manufactured by Champion, Side Discharge, Model 14/21, with a 5 h.p. motor, 3 phase, 208-230/460 volts. While using the existing make & model equipment for the replacement is recommended, it is not required if an equivalent system can be designed & installed with the same or better operating efficiency.

The manufacturer of the interior diffusers is unknown. This project will require that the contractor determine whether the same or better diffusers can be purchased or manufactured and installed. The refurbishment of the existing diffusers is also an option.

SCHEDULED TIMELINE

The successful bidder shall have 90 (ninety) days for completion of the project, starting upon the date of the official Notice of Award and/or issuance of a Purchase Order by El Dorado Transit.

QUOTATION PROPOSAL BIDDING REQUIREMENTS

PROJECT PROPOSAL EXPECTATIONS

El Dorado Transit will award the contract for the Quotation and proposal that best accommodates the project requirements. El Dorado Transit reserves the right to accept, reject any or all submittals, or any item or part thereof.

DEADLINE TO SUBMIT PROPOSAL & FORM

All questions or requests for further information must be received by Transit no later than 2:00 PM on August 16, 2024.

All quotations or proposals must be received by El Dorado Transit no later than 5:00 PM on August 23, 2024 for consideration by Transit staff, using the **Quotation Form** attached hereto. No quotation or proposal will be accepted from anyone who did not attend the mandatory job walk on August 5, 2024.

LICENSING & INSURANCE

The successful bidder or contractor shall be properly licensed and insured for the project work. Typically a C-20 license, Heating, Ventilating and Air Conditioning would be required. Also, a County business license is required for any work performed in the unincorporated area of the County.

LABOR CODE & PREVAILING WAGE RATES

This project is considered a public works project and the Contractor must comply with all applicable Labor Code provisions, including the payment of prevailing wage rates to workers or sub-contractors, and registration with the Department of Industrial Relations (DIR).
